

of regional pollution emergency response operations.

(z) *Regional Response Team (RRT)*. A team of regional Federal representatives of the primary or selected advisory agencies, which acts within its region as an emergency response team performing functions similar to those of the NRT.

(aa) *Sheen*. An iridescent appearance on the surface of water.

(bb) *Sludge*. An aggregate of oil or oil and other matter of any kind having a combined specific gravity equivalent to or greater than water.

(cc) *Spill event*. A discharge of oil or hazardous substance on land or into or upon the navigable waters of the United States or adjoining shorelines in harmful quantities. For oil, a harmful quantity is that oil in excess of established State water quality standards; or that which causes a film, sheen, or discoloration on the surface of the water or adjoining shorelines; or quantities in excess of 1,000 U.S. gallons on land. For other hazardous substances, quantity guidelines will be published by DAEN-ZCE when information is developed by EPA.

(dd) *Toxic pollutant*. Those pollutants or combinations of pollutants, including disease-causing agents, which after discharge and upon exposure, ingestion, inhalation, or assimilation into any organism, either directly from the environment or indirectly by ingestion through food chains, will cause death, disease, behavioral abnormalities, cancer, genetic mutations, physiological malfunctions (including malfunctions in reproduction), or physical deformations in such organisms or their offspring.

(ee) *Vessel*. Every type of watercraft or other artificial contrivance used, or capable of being used, as a means of transportation on water, other than a public vessel.

§ 650.204 Policies.

(a) A capability will be established and maintained to respond in emergency situations to promptly contain and clean up accidental DA-caused oil discharges and spills of hazardous and toxic substances that occur at or near Army installations and activities.

(b) Assistance will be provided to contain and clean up non-DA-caused spills under the provisions of the National Oil and Hazardous Substances Pollution Contingency Plan consistent with operational commitments.

(c) All materials (including oils, fuels, petroleum products, and other hazardous chemicals) will be handled, used, and stored to avoid or minimize the possibility of an accidental spill and potential pollution of land, air, and water.

(d) Storage facilities for oil and other hazardous substances (at date described herein) will be designed to incorporate such safeguards as dikes, catchment areas, and relief vessels to contain the flow of oil and hazardous liquids and to minimize the contamination of land and water resources.

(e) DA agencies will cooperate with the Council on Environmental Quality, Department of Interior, Department of Transportation, the Environmental Protection Agency, and the Department of Commerce in the planning and execution of activities to minimize the possibility of discharges or mitigating the effects of spills, wherever they occur.

(f) Contracts for disposal of oil or other wastes will contain provisions that require the disposal method to be in accordance with Federal, State, and/or local regulations and standards.

(g) Each installation or activity with the capability of storing, dispensing or discharging oils, oil products, and bulk quantities of liquid toxic and hazardous substances will prepare, maintain and implement a current SPCC Plan and an ISCP as specified herein. (The requirements for a spill prevention plan and a spill contingency plan may be satisfied by one plan with two distinctive sections—SPCC and ISCP.)

§ 650.205 Implementing guidelines.

(a) The willful discharge of oil, petroleum products or hazardous and toxic substances from installations, vehicles, aircraft, and watercraft onto land or into waters is prohibited except in cases of extreme emergency and if considered essential for the protection of human life. Every reasonable precaution, therefore, will be taken to prevent the accidental discharge of oil or
